

STONE PROJECT

UN PROGETTO CHE NASCE DALLA PIETRA

Siamo entrati nella sua sostanza naturale, l'abbiamo sezionata e ne abbiamo studiato i tagli e le lavorazioni, per ottenere una nuova materia dalle molteplici facce conservandone la varietà che la Natura ha creato in milioni di anni. Stone Project è la sintesi perfetta della creatività italiana, che combina sapientemente la tecnica del doppio caricamento in pressa e la tecnologia della grafica digitale full HD. Stone project è un materiale tecnico ideale per progettare ogni tipo di spazio senza vincoli.

A PROJECT BORN FROM STONE

We went inside its natural substance, cut through it and studied the ways it is cut and worked, to produce a new material with a multiplicity of faces, conserving all its variety, created by Nature over millions of years. Stone Project is the perfect synthesis of Italian creativity, which skilfully combines the double press-loading production method and Full HD digital graphics. Stone Project is a technical material, ideal for designing spaces of all kinds, with no limitations.

UN PROJET QUI S'INSPIRE DE LA PIERRE.

Nous sommes allés au plus profond de sa substance naturelle. Nous l'avons sectionnée et nous en avons analysé les coupes et les façonnages. Nous avons ainsi obtenu une matière nouvelle, aux multiples facettes. Nous en avons préservé cette variété créée par la nature au fil des millénaires. Synthèse parfaite de la créativité italienne, Stone Project est cette association savante de la technique du double chargement au pressage et de la technologie d'impression numérique full HD. Stone Project est un matériau technique idéal pour la conception sans contrainte de tout type d'espace.

EIN KONZEPT, DAS AUS DEM STEIN ENTSTEHT

Wir sind in seine Substanz eingedrungen, haben ihn erforscht und uns an der Optik der Schnitte und Bearbeitungen inspiriert, um eine neue, facettenreiche Materie mit der ganzen Vielfalt zu erhalten, die die Natur im Laufe von Millionen von Jahren zu erschaffen wusste. Stone Project ist die Quintessenz italienischer Kreativität, geboren aus der bekannten Verbindung des Doppelchargierverfahrens in der Presse mit der digitalen Full-HD-Grafiktechnologie. Stone Project ist ein Hi-Tech-Material, ideal für grenzenlose Raumgestaltung.

UN PROYECTO QUE NACE DE LA PIEDRA

Hemos entrado en su substancia natural, la hemos seccionado y hemos estudiado sus cortes y elaboraciones, para conseguir una nueva materia de múltiples caras, conservando la variedad que la naturaleza ha creado a lo largo de millones de años. Stone Project es la síntesis perfecta de la creatividad italiana, que combina sabiamente la técnica de la doble carga en la prensa y la tecnología de diseño gráfico digital Full HD. Stone Project es un material técnico ideal para proyectar cada tipo de espacio sin vínculos.

ЭТОТ ПРОЕКТ РОЖДАЕТСЯ ИЗ КАМНЯ

Мы нашупали его сущность, мы распилили его и изучили его срезы и обработки, чтобы получить новую, многогранную материю, сохранив то многообразие, которое Природа создала за миллионы лет. Stone Project - это великолепный синтез итальянской креативности, которая умело сочетает в себе метод двойной загрузки в пресс и технологии цифровой графики Full HD. Stone Project - это технический материал, отлично подходящий для проектирования пространств любого типа, без ограниченных.
